Diamond Grade (DG) Reflective Film

Panamax DG sheeting combines advanced reflectivity, weather resistance, and strength for reliable traffic control solutions.

White Yellow Red Green Blue Orange Brown Fl. Yellow-green Fl. Yellow

Size / Dimension
1230 mm X 45.72 mtr

Application Temperature
18-28°C

Application Area

Diamond Grade (DG) has been specially developed for traffic control applications. Surfaces to which the material will be applied must be thoroughly cleaned of dust, grease, or any contamination that could affect adhesion.

Product Description

Diamond Grade (DG) films are highly reflective, weatherproof, and self-adhesive, with excellent resistance to corrosion and solvents. The product has been specifically developed for the manufacture of traffic control, guidance, warning, and information signs intended for long-term vertical outdoor use. The sheeting is composed of a UV-stabilized acrylic front film. Its retroreflective system consists of sealed cells of air-backed microprismatics, utilizing total internal reflection.
