

PANAMAX[®]

WE MAKE THINGS STICK

ENSURING SAFETY, STRENGTH & RELIABILITY IN APPLICATION

MANUFACTURER OF
HIGH-PERFORMANCE ADHESIVE TAPES FOR

ELECTRICAL & ELECTRONIC
INDUSTRY APPLICATIONS

Ensuring Safe & Reliable in Electronic & Electrical Installations

PVC Insulation Tape Films are coated with a specially formulated rubber-based adhesive, ensuring strong adhesion and durability. This tape offers high elongation and excellent conformability, making it ideal for wire harness applications.

- REACH & RoHS compliance
- Flame Retardant (FR) grade
- High-temperature resistance
- Enhanced thickness for durability

PVC INSULATION TAPES

DOUBLE SIDED TISSUE TAPE

Tissue Tape is a non-woven, double-sided tape with strong adhesive for reliable bonding on plastic, fabric, leather, and wood.

- Durable & long-lasting adhesion
- Temperature & solvent resistant
- High shear strength
- No adhesive deterioration over time

SINGLE SIDED FOAM TAPE

Single-Side Foam Tape offers cushioning, shock absorption, and vibration damping, ensuring flexibility and protection.

- Custom adhesion for various surfaces
- Impact protection with excellent cushioning
- Seals surfaces against dust, moisture, and air
- Ideal for cushioning, sealing, and sound dampening

AIR VENT TAPE

Air Vent Tape is a microporous tape that allows the passage of high-compressed airflows during insulation, ensuring optimal functionality in airflow-dependent appliances.

- Seals ducts and vents for proper air circulation
- Maintains internal temperatures and energy efficiency
- Prevents contaminants from entering sensitive components

DOUBLE SIDED POLYESTER TAPES

Double sided Polyester tape coated with strong synthetic rubber. The polyester material provides durability and resistance to tearing.

- Water proof
- For securing parts in assembly processes
- Ideal product for washing machine control panel label

SURFACE PROTECTION TAPE

Designed to protect surfaces from scratches, dust, and dirt during manufacturing, transportation, and installation.

- Transparent for easy inspection
- UV-resistant to prevent sunlight damage
- Low-tack adhesive for residue-free removal
- Available in various thicknesses & adhesion levels

MASKING TAPES

Ideal for paint solutions, holding, and general masking, this tape features a flexible crepe paper backing with a special adhesive that leaves zero residue upon removal.

- Available in multiple thicknesses
- Strong bond yet easy to tear
- Conforms to any shape or surface
- Temperature resistant & RoHS compliant

FILAMENT TAPES

Designed for holding and strapping heavy materials, these tapes feature a polyester backing with fibre cross-weaving yarn for extra strength.

- Ideal for heavy-duty applications
- Clean removal without residue
- Available in mono and cross-weaving patterns

HOLDING TAPES

Designed for holding panels, plates, slabs, and components in refrigerators and other white goods appliances.

- Strong adhesion & holding capacity
- Temperature resistant
- Leaves no residue upon removal
- Available in multiple colors

ACRYLIC FOAM TAPE

A double-sided adhesive foam tape with customizable thickness and strength, designed for automotive applications.

- Weather & temperature resistant
- Strong adhesion to any surface
- Excellent vibration resistance
- Customizable length and thickness

A Class-B Rayon cloth-backed insulation tape with anti-decay and moisture resistance, ideal for electrical applications.

- No heat or moisture needed for adhesion
- Withstands up to 105°C for continuous use
- RoHS compliant & moisture resistant
- Easy to tear by hand
- Ideal for coil wrapping & wire harnessing

ACETATE CLOTH TAPES

GLASS CLOTH TAPES

Glass Cloth tape is a strong and durable, fiberglass backed tape designed specially for applications like thermal insulation, joining, sealing and seaming.

- For Permanent sealing or masking
- Withstand at high temperature
- Clean removal after application
- Protect surface from abrasion

ALUMINUM GLASS CLOTH TAPE

A glass cloth and aluminum foil composite tape offering strength, heat resistance, and insulation for industrial applications.

- Strong adhesion power
- Ideal for industrial sealing
- High-temperature resistant
- Excellent heat reflectivity & insulation
- Lightweight & flexible

POLYIMIDE TAPE

Engineered for thermal stability, electrical insulation, and chemical resistance, making it ideal for demanding applications.

- Heat resistant (Class H/P) Superior electrical insulation
- Resistant to chemicals, oils & solvents
- Thin, flexible & strong adhesion
- Non-conductive & flame-retardant (FR Grade)

ALUMINUM TAPE

A versatile adhesive tape with an aluminum foil backing, offering heat resistance, moisture protection, and airtight sealing.

- Withstands high temperatures
- Reflects heat, light & UV radiation
- Resistant to moisture, corrosion & chemicals
- Provides electrical conductivity
- Durable, flexible & easy to apply
- Available with or without a siliconized paper liner

PANAMAX[®]

WE MAKE THINGS STICK

MANUFACTURER OF
HIGH-PERFORMANCE
ADHESIVE TAPES

SINCE
1996

*Bonding Innovation, Strength, and Reliability,
'Panamax' - a trusted partner in Adhesive Tape Solutions.*

Established in 1996, Panamax Limited has emerged as a trusted leader in adhesive tapes solution. Specialised in manufacturing customized products, the company serves diverse industries, including Automotive, Electronics, Construction, and Renewable Energy. Renowned globally, Panamax is recognized for its unwavering commitment to innovation, quality, and precision.

With certifications such as ISO 9001:2015, ISI, and RoHS, Panamax's products adhere to the highest quality standards, delivering exceptional performance. The company prioritizes customer success by ensuring timely delivery, unmatched quality, and strong partnerships, exemplifying its mission to foster mutual growth and excellence.
