MANUFACTURER OF HIGH-PERFORMANCE ADHESIVE TAPES | SINCE 1996

*We make
things stick*

PVC INSULATION TAPES

PVC Insulation Tape films are coated with a specially formulated rubber-based adhesive, ensuring strong adhesion and durability. This tape offers high elongation and excellent conformability, making it ideal for wire harness applications.

- REACH & RoHS compliance
- Flame Retardant (FR) grade
- High-temperature resistance
- Enhanced thickness for durability

COPPER FOIL TAPES

Copper foil tape is made from very thin copper metal sheet as backing material coated with acrylic adhesive used in a variety of shielding and grounding applications.

- Developed for specific EV application
- RoHS compliance
- T2 temperature resistance
- Effective with high conformability

DOUBLE SIDED TISSUE TAPES

Tissue Tape is a non-woven, double-sided tape with strong adhesive for reliable bonding on plastic, fabric, leather, and wood.

- Durable & long-lasting adhesion
- Temperature & solvent resistant
- High shear strength
- No adhesive deterioration over time

SINGLE SIDED FOAM TAPES

Single-Side Foam Tape offers cushioning, shock absorption, and vibration damping, ensuring flexibility and protection.

- Custom adhesion for various surfaces
- Impact protection with excellent cushioning
- Seals surfaces against dust, moisture, and air
- Ideal for cushioning, sealing, and sound dampening

AIR VENT TAPES

Air Vent Tape is a microporous tape that allows the passage of high-compressed air/gas during insulation, ensuring optimal functionality in airflow-dependent appliances.

- Seals ducts and vents for proper air circulation
- Maintains internal temperatures and energy efficiency
- Prevents contaminants from entering sensitive components

BOPP tape is most commonly used packaging tape across the industries. Developed with best quality BOPP film available with all variant adhesive for different applications at different climatic conditions.

- Guaranteed thickness and length
- Best for application in any temperature
- Available in multiple thickness and any size cut roll/ machine roll

BOPP TAPES

KRAFT PAPER TAPES

- Eco friendly Packaging
- Available in multiple thickness
- Colored Printing on tape
- Available Reinforced paper tape

TRANSFER TAPES

- Carrier-less Tape, flexible and lightweight
- Strong Bonds with metals, plastics, and paper
- Available with liner for controlled placement
- Available in permanent, removable, and high-temperature-resistant adhesive options

DOUBLE SIDED POLYESTER TAPES

Double sided Polyester tape coated with strong synthetic rubber. The polyester material provides durability and resistance to tearing.

- Water proof
- For securing parts in assembly processes
- Ideal product for washing machine control panel label

MASKING TAPES

Ideal for paint solutions, holding, and general masking, this tape features a flexible crepe paper backing with a special adhesive that leaves zero residue upon removal.

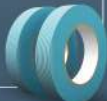

- Available in multiple thicknesses
- Strong bond yet easy to tear
- Conforms to any shape or surface
- Temperature resistant & RoHS compliant

HOLDING TAPES

Designed for holding panels, plates, slabs, and components in refrigerators and other white goods appliances.

- Strong adhesion & holding capacity
- Temperature resistant
- Leaves no residue upon removal
- Available in multiple colors

RETRO REFLECTIVE TAPES

Retro Reflective Tapes is designed to boost vehicle visibility in low-light conditions, significantly reduce the likelihood of accidents, especially in poor light or high-traffic areas. Panamax Retro Reflective tapes are engineered to meet international safety standards, offering a durable and effective solution for a pressing issue.

- Approved by I-CAT and adhere to AIS-900 standards
- Meets ECE/EC 17021 - 1:2015 regulation
- Highly UV-stable, weather-resistant, highly reflective
- Edge-sealed for water and dustproof performance
- Next-Gen Micro Prismatic Marking Design

TEFLON TAPES

Teflon Cloth Tape (also called PTFE-coated fiberglass tape) is a high-performance adhesive tape used in heat-sealing, industrial applications, and electrical insulation.

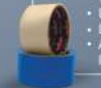

- Non-Stick Surface – Prevents adhesives, resins, and other materials from sticking
- Heat Resistant – Can withstand temperatures up to 500°F (260°C)
- Chemical & Abrasion Resistant – Works well in harsh environments
- Low Friction – Reduces wear on surfaces in machinery and conveyors
- Strong Adhesion – Silicone or acrylic adhesive options for different needs

SURFACE PROTECTION TAPES

Designed to protect surfaces from scratches, dust, and dirt during manufacturing, transportation, and installation.

- Transparent for easy inspection
- UV-resistant to prevent sunlight damage
- Low-tack adhesive for residue-free removal
- Available in various thicknesses & adhesion levels

FILAMENT TAPES

Designed for holding and strapping heavy materials, these tapes feature a polyester backing with fibre cross-weaving yarn for extra strength.

- Ideal for heavy-duty applications
- Clean removal without residue
- Available in mono and cross-weaving patterns

ACRYLIC FOAM TAPES

A double-sided adhesive foam tape with customizable thickness and strengths, designed for automotive applications.

- Weather & temperature resistant
- Strong adhesion to any surface
- Excellent vibration resistance
- Customizable length and thickness

ACETATE CLOTH TAPES

A Class-B Rayon cloth-backed insulation tape with anti-decay and moisture resistance, ideal for electrical applications.

- No heat or moisture needed for adhesion
- Withstands up to 105°C for continuous use
- RoHS compliant & moisture resistant
- Easy to tear by hand
- Ideal for coil wrapping & wire harnessing

GLASS CLOTH TAPES

Glass Cloth tape is a strong and durable, fiberglass-backed tape designed specially for applications like thermal insulation, joining, sealing and seaming.

- For Permanent sealing or masking
- Withstand at high temperature
- Clean removal after application
- Protect surface from abrasion

ALUMINUM GLASS CLOTH TAPES

A glass cloth and aluminum foil composite tape offering strength, heat resistance, and insulation for industrial applications.

- Strong adhesion power
- Ideal for industrial sealing
- High-temperature resistant
- Excellent heat reflectivity & insulation
- Lightweight & flexible

POLYIMIDE TAPES

Engineered for thermal stability, electrical insulation, and chemical resistance, making it ideal for demanding applications.

- Heat resistant (Class H/F) Superior electrical insulation
- Resistant to chemicals, oils & solvents
- Thin, flexible & strong adhesion
- Non-conductive & flame-retardant (FR Grade)

ALUMINUM TAPES

A versatile adhesive tape with an aluminum foil backing, offering heat resistance, moisture protection, and airtight sealing.

- Withstands high temperatures
- Reflects heat, light & UV radiation
- Resistant to moisture, corrosion & chemicals
- Provides electrical conductivity
- Durable, flexible & easy to apply
- Available with or without a siliconized paper liner

PANAMAX[®]

WE MAKE THINGS STICK

MANUFACTURER OF
HIGH-PERFORMANCE
ADHESIVE TAPES

SINCE
1996

*Bonding Innovation, Strength, and Reliability,
'Panamax' - a trusted partner in Adhesive Tape Solutions.*

Established in 1996, Panamax Limited has emerged as a trusted leader in adhesive tape solutions. Specialised in manufacturing customized products, the company serves diverse industries, including Automotive, Electronics, Construction, and Renewable Energy. Renowned globally, Panamax is recognized for its unwavering commitment to innovation, quality, and precision.

With certifications such as ISO 9001:2015, ISI, and RoHS, Panamax's products adhere to the highest quality standards, delivering exceptional performance. The company prioritizes customer success by ensuring timely delivery, unmatched quality, and strong partnerships, exemplifying its mission to foster mutual growth and excellence.
